

## Modifications to Make a Composition Book Cover

These are only the measurement substitutions. **One would still need the online instructions linked from [allpeoplequilt.com](http://allpeoplequilt.com) Project: Scrap Lab Notebook Cover to complete the project.**

Note: The online instructions specifically say, "spiral notebook," but a Composition Book was included in the Boutique Kit. The spiral notebook that fits perfectly is 8 x 10.5. (*and not the 7 x 10.5 listed in allpeoplequilt*).

To make a Composition Book Cover, use the measurements below, which were developed by Janet Taylor. She also added the 10-inch ribbon ties.

### SUBSTITUTE THESE PIECE MEASUREMENTS TO FIT A COMPOSTION BOOK

1 rectangle 5 x 11

1 rectangle 5 x 11

These two make the front pen panel & pocket.

1 rectangle 11 x 13

This makes the outer cover.

4 rectangles 11 x 15

These make inner pocket units.

1 rectangle 13 x 19 makes the inner lining.

Same for batting. This will get trimmed at step 3.

Add two 10-inch ribbons.
